STOVES, FENDERS, AND FIRE-IRONS,
SELLING OFF at EDWARDS', 20, Poland-street, Oxford-street, respectfully informs his numerous friends, patrons, and the public, that he has taken the new and extensive premises, No. 42, Poland-street, which will be ready for him, by the month of June next, when he intends opening with an entire new and extensive assortment of stoves, fenders, and fire irons, kitchen ranges, &c. The present sale is a general sale of the whole of the stock, every article is marked in plain figures, from which no abatement can be made, a fine opportunity now offers to gentlemen, architects, and builders.

HOT-WATER APPARATUS.—The attention of architects, builders, and others is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls, staircases, conservatories, forcing and greenhouses, manufactories and warehouses, kilns, rooms for drying timber, &c. and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were executed are constantly expressing their satisfaction, also their willingness to vouch for their efficiency. An improved upright tubular boiler, which requires no brickwork, may be seen in action upon the premises.—BENJAMIN FOWLER, 69, Dean-street, Fleet-street.

TO ARCHITECTS, BUILDERS, &c.
COPPER-WIRE CORD.—R. S. NEWALL and Co.'s PATENT IMPROVED COPPER-WIRE CORD for WINDOW SASH LINES, Hot-houses, Lightning Conductors, Drawing Pictures, Clock Cord, and various other purposes for which hempen rope has hitherto been used. This new and valuable Patent is fast superseding the use of the hempen cord, and is strongly recommended to all builders and other parties connected with the above. The Wire Cord may be had wholesale, and experiments seen at the office of the Patentees, No. 16, Penchurch-street, W. T. ALLEN, Agent; or retail of G. and J. DEANE, 46, King William-street, and E. PARKS, 140, Fleet-street; also of all respectable Ironmongers.

WARMING by means of the circulation of WARM AIR.—BURRIDGE and HEALY beg respectfully to inform the public, that they are prepared to undertake the warming of churches, but houses, &c. with a new apparatus of the most simple and durable construction, which they can warrant to keep in order any length of time, and which is capable of effectually warming buildings of any magnitude in a most economical manner.—BURRIDGE and HEALY, 139, Fleet-street.

IMPROVED COOKING APPARATUS.—MARRIOTT'S PATENT.—After forty years constantly manufacturing all kinds of Cooking Ranges, can confidently recommend this as the most perfect and economical one ever produced; it will roast, bake, boil, fry, stew, heat a steam closet and kettle, will burn any thing, is very cleanly, and a positive cure for a Smoky Chimney. May be seen daily in use at the Manufactory.
IMPROVED WATER CLOSETS, PORTABLE or FIXED.—MARRIOTT'S PATENT.—This useful article is manufactured of the best materials in all its parts, and kept in a variety of shapes, by W. A. MARRIOTT, who has reduced the price to £1 10s. at the Manufactory.
NEW PATENT CHIMNEY-POT for SMOKY CHIMNEYS.—This article is the most unique and perfect Chimney-top yet in use, and less in price than any others. Wherever it has been fixed it has not failed to give satisfaction.
MANUFACTORY, 99, FLEET-STREET, London.

TO GAS COMPANIES, Gas Fitters, and Gas Consumers.—N. DEFRIES, 10, Hampstead-road, C. 81, Martin's-lane, and 118, Argyle-street, Glasgow, having proved by eight years' experience his COAL METER to be unrivalled, begs to say, that nearly 20,000 are now in use, defying injurious Gas, and are never affected by Heat, Damp, or Frost. They may be obtained on Hire of all the Gas Companies who supply Meters to their Customers.—Testimonials of great value may be obtained at either Factory.

DOMESTIC GAS FITTINGS. — The cleanliness, cheapness, brilliancy, and safety of this mode of lighting private residences are leading to its general adoption. GEORGE and JOHN DEANE'S stock of LAMPS, Chandeliers, Brackets, &c., is very large, and exhibits the most elegant and modern designs. G. and J. DEANE fit up single apartments or houses on true scientific principles, and in the most artistic style, and as every thing is got up in their own workshops, G. and J. DEANE can engage for the strictest punctuality and the lowest possible charges. N.B. Plans and estimates prepared.—GEORGE and JOHN DEANE, Gas-fitters, opening to the Monument, 46, King William-street, London-bridge.

By Her Majesty's — Royal Letters Patent.

GLASS VENTILATORS FOR WINDOWS.
BAILLIE'S Patent Transparent Slide Valve VENTILATORS, supplied at a reduction of 40 per cent. from the original Tariff. Their extensive and successful application to public offices, bed-rooms, and the cure of smoky chimneys, prove their great utility. Coloured Glass of every tint at wholesale prices.—Designs and estimates for church and ornamental windows furnished.—Apply to EDWARD BAILLIE, Glass Painter, Stainer, and Embosser, 12a, Cumberland Market, Regent's-park, London, where specimens are to be seen.

VENTILATION. — FAIRS' PATENT TRANSPARENT VENTILATORS.—The progressive increase in the use of this invention during several years' trial, in which it has had to contend with many limitations, encourages the Proprietors to recommend it with confidence to the Public generally, and to the Building Trade in particular, to whom they are now enabled to offer greater inducements for its adoption. For the CURE of SMOKY CHIMNEYS, and the thorough, but safe and agreeable, Ventilation of Apartments, Offices, &c., this invention is unequalled; and its general adoption in the Royal Palaces, the Public Offices, Banking-houses, Insurance offices, and in the dining-rooms and other apartments in the houses of the nobility and gentry, are sufficient evidence of its efficacy.
Orders received by FAIRS and Co., No. 139, New Bond-street; BENNETT and COMPE, No. 26, Leonhard-street; and at the Manufactory, 13, Gilling'sam-street, Pimlico.
N.B. Ornamental Zinc Sashes and Casements for Gothic Windows, Stained Glass, &c.

GRANT'S PATENT ROTARY WIND-GUARD, for the prevention of Downward Drafts and cure of Smoky Chimneys, by discharging a strong Current of Air at the Mouth of the Chimney Pot. The attention of the Public and the Trade is respectfully solicited to this simple Apparatus. The Patentees guarantee its effecting the purposes named. Let the wind blow from what quarter it may, it is not liable to derangement; can be easily and cheaply applied, and does not in any way interfere with the Sweeping the Chimney.

This apparatus is also applied to work an ventilation series of fanners, for supplying the vitiated air from public or crowded rooms. In no instance has it failed to accomplish the above named objects.—Manufactured by the Patentees, LAMBERT and GRANT, 21, Elizabeth-street, Eaton-square.

DR. ARNOTT'S CHIMNEY VENTILATOR.
F. EDWARDS, Stove Maker to her Majesty, 20, Poland-street, Oxford-street, begs to call the attention of Architects, Builders, Gas-fitters and the Public, to the truly invaluable advantages to be derived from the use of Dr. Arnott's Valve for the Ventilation of Rooms of every description.
Prices from 7s. 6d. to 30s. each. A prospectus, containing full particulars, to be had on application.
SMOKY CHIMNEYS—NO CURE, NO PAY.
Twenty-five years' extensive experience in all the branches of a stove manufacturing business, and the cure of smoky chimneys of every description, fully justifies F. E. in stating that he can undertake the cure of smoky chimneys on the above equitable terms.

WILSON and Co.'s PATENT VENTILATING CHIMNEY-POT,
for the Cure of Smoky Chimneys, has been tested extensively throughout the Kingdom for the last three years, and has proved to be an effectual remedy.
The Patent Pots cannot come off or get out of order, and can be effectually swept by the sweep's machine.
J. W. and Co. had the honour of fixing upwards of fifty of the Patent Ventilating Chimney Pots, in artificial Stone Cement, on the chimneys of Hemmingham Palace; since which a number have been fixed at Windsor Castle.
The Patent Pots have proved to be the most effectual invention ever yet discovered, and also unrivalled for their ornamental appearance; they are manufactured of artificial Stone Cement, Iron, or Zinc.
The Trade supplied with them at the Manufactory.
VALE PLACE, HAMMERSMITH, MIDDLESEX.
Inquiries from the Country to be addressed to Messrs. Wilson and Co., at their Manufactory, as above. Prices and prospectuses forwarded by return of post.
N.B. Licenses granted to Manufacturers.

MORTGAGE AND ANNUITY OFFICE, No. 125, CHANCERY-LANE.
PERSONS requiring LOANS by way of MORTGAGE, or otherwise, upon any available security, may at all times procure an advance to the extent of from £100 to £1,000, or so much as the property will bear, by applying to Mr. BRAY, surveyor, at the offices as above.
N.B. To expedite the preparation, personal application at the office would in all cases be better, the party bringing with them the abstract of title, plans, &c.

TO ARCHITECTS.—COMPETITION AND OTHER DRAWINGS.
MR. THOMAS S. BOYS, Member of the New Society of Painters in Water Colours, and author of "The Picturesque Architecture of Paris, Ghent, Rouen, &c." and of "London as it is," offers his services in Tinting Backgrounds, Landscapes, Perspective Views, Interiors, &c. From the long experience he has had in such subjects, he is fully aware of the points essentially necessary to be attended to. Drawings and designs lithographed in a superior manner.—Address, Mr. BOYS, 81, Great Titchfield-street, Oxford-street.

TO ARCHITECTS, ENGINEERS, SURVEYORS, BUILDERS, &c.
MR. COON having discovered a New Method of LITHOGRAPHING PLANS of every description, in about half the usual time, and at a considerable less expense, begs to offer his services for that purpose, promising that any orders he may be favoured with will be promptly attended to. It answers admirably for multiplying Tracings.—Lithographic Printing Office, 18, Cheapside, London.

PROTOXIDE PAINT, for Stucco Fronts, for Iron, Brickwork, and Wood. Manufactured only by CHARLES FRANCIS and SONS, Cement Works, Nine Elms.

ATKINSON'S CEMENT.—WILLIAM WOOD, Jun., Manufacturer of Roman, Portland, and Bath Cement, Blue Lias Lime Works, CHURCH-STREET, ROTHERHITHE, Sole Manufacturer for Atkinson's Cement.—Grey Stone Lime Depôt. Cement Chimney pots of every pattern.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.
It is a cheap and effectual substitute in place of wood for skirting, architrave, and other mouldings, in its application for which purpose it checks the progress of Fire and the attacks of Vermin.
Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Steel-street, Liverpool.

PORTLAND CEMENT.—Testimonials received from all quarters prove this CEMENT to possess the rare property of withstanding the severest frost, and to be consequently superior to every other for hydraulic purposes—such as the Building and Lining of Reservoirs, Cisterns, Baths, Fishponds, &c. For External Plastering and Ornamental Castings, it requires neither Colour nor Paint; is never repetated, and will carry from three to four times its own body of sand.
Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT, solely Manufactured by W. ASPDIN, Son of the Patentee. This Cement has been proved, for upwards of twenty years in the Thames Tunnel, to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, sprydate, or turn green; nor is it affected by any atmospheric influence whatever, the climate resulting alike the action of frost and heat. It is manufactured to be free from free to sixty minutes. For purposes that require a rapid cable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall.

REMOVED FROM 5, MAIDEN-LANE, TO 22, STEEL-YARD, UPPER THAMES-STREET.
TO ARCHITECTS, ENGINEERS, BUILDERS, Masons, Plasterers, and Painters, Merchants, Shipers, and the Public in general.
JOHNS and CO.'S PATENT STUCCO CEMENT, for outside Plasterers—perfectly resembles Stone—utterly resists Wet—does not disorder by Damp—wants no Paint—never cracks or blisters—adheres to any substance without previous preparation—is not affected by Frost or Heat—may be exported to every Climate—it improves by Age—it is the only Cement that is a prompt and perfect remedy for internal Damp Walls—it is very cheap, and very easily worked.
Where also may be obtained,
JOHNS and CO.'S PATENT STONE COLOUR STUCCO PAINT, expressly for Painting over Exteriors of Houses that have been covered with Roman or other Cements, and which have become discoloured. This PAINT having an affinity for Stucco, binds itself with it, stopping the suction, thereby rendering the Wall proof against Weather, and in the finish producing a pure stone-like effect, producible by no other Paint whatever. It is cheap, and may be used by any Painter in any climate, even in the most exposed marine situations. Specimens may be seen, and a Prospectus fully describing the Cement and mode of application, may be had of Johns and Co., at 22, Steel-yard; or the Manufactory, Plymouth.

MARTIN'S FIRE-PROOF AND ORNAMENTAL CEMENT.
CAUTION.—Messrs. STEVENS and SON Patentees, beg to caution their friends and the trade generally against confounding this invaluable Cement with others, erroneously said to be of the same description. S. and S. pledge themselves that MARTIN'S CEMENT is totally dissimilar in composition and manufacture from every other, and being a neutral compound, is not only free from chemical agency upon any substance with which it may come in contact, but completely resists the action of the strongest acids. They feel it a duty to direct attention to the following properties, which it exclusively possesses:—
1. It rapidly acquires the hardness of stone.
2. Unlike other internal cements, its hardness is uniform throughout its entire thickness.
A its surface (which may be made equal to that of the finest marble) NEVER THROWS OUT ANY SALT, and will receive paint in four days, without peeling, when put upon dry work.
It is peculiarly adapted as an internal stucco for walls, skirtings, architraves, mouldings, and enrichments of all kinds, to all of which purposes it has been extensively applied by Mr. Thomas Cubitt, on the Grosvenor estate, &c.
For the above purposes, it possesses great advantages over woods, being more economical and durable, resisting fire, damp, and vermin.
For the floors of halls and fire-proof warehouses, its lightness, durability, and uniform surface give it an immense advantage over stone, being, at the same time, much more economical. The most satisfactory references can be given. To be had of the Patentees, Theatre of Paris and Cement Manufacturers, 126, DRURY LANE.
Agents for Liverpool and Manchester, Mr. R. PART, 28, Cannings-place, Liverpool.

EMERSON'S PATENT CEMENT PAINT.—THIS VALUABLE AND ECONOMIC PAINT is ready for use, is simple in its application, and only ONE-SIXTH the cost of oil paint; for beauty it is pre-eminent over all other materials used on the fronts of houses, giving the exact appearance of FINE CUT PORTLAND OR OTHER STONE; it can be used at once on fresh Roman cement or other plastering, and is particularly calculated for country houses, villas, or gate entrances that have become soiled or dingy, which can be at once beautified in any weather, at a mere trifling cost.—Sold in casks of 1 and 2 cwt., at 8s. and 16s. each.
PATENT MINERAL PAINT.
A brilliant black paint, invaluable as a coating for SHIPS' SIDES AND BOTTOMS; also for all kinds of WOOD or METAL work, or the asphalte leading forts, leaky roofs, spouts, and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influence and decay.—requires no preparation, and will dry in a few hours.—Price 3s. per gallon.
PATENT ASPHALTE ROOFING AND SHEATHING FELT.
A large supply of the best quality, direct from the Manufactory, at low prices, for home use and exportation.
GEORGE LEAR and Co., Sole Agents for the Patentees, No. 9, Church-court, Clement's-lane, Lombard-street.

TO THE BUILDING PUBLIC.
FIRST-RATE ORNAMENTS in ROMAN and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balustrades, Capitals, pierced Panellings, Cantilevers, Brackets, Trusses, Wreaths, Scrolls, Masques, Heads, Figures, Friezes, Gothic and other Chimney-Shafts, Rosettes, Bead-mouldings, Patenæ, &c., 36 inch Centre, Flowers fixed complete, 9s. each, smaller in proportion. An assortment of Shop-front Trusses always ready for fixing.—JOHN HERBERT and SON, Modellers, &c., 43, Parker-street, Drury-lane.
